PURE
CATERING

about

At Pure Catering we are proud supporters of sport.

From school sporting championships and grassroots Rugby Union to our top-level professional Rugby and Netball players, Pure Catering works closely with these organisations to provide individual, balanced options personalised to the nutritional needs and budget of the organisation.

Our in-house Dietitian will work closely with your staff to provide a tailored experience that is both healthy and flavoursome, something even the pickiest eater (big or small!) will enjoy.

dieteries

As for special dietary requirements, our in-house nutrionalist and dietician [Rachelle Lamb](#), is available to help you with even the most complex of dietary requirements – and we take all care in individually boxing and labelling your dieteries including nut free, gluten free, dairy free, vegan and vegetarian.

services

Our services include, but are not limited to:

- Delivered “Lunch Packs” to your organisation or event, ready to fuel the participants for competition or training.
- Monthly, weekly or daily buffet style meals, nutritionally balanced, freshly prepared for any meal of the day.
- Multi- day packages for training camps or tournaments.
- Event packages for those special celebrations, presentation nights, fundraisers and gala occasions.

partners
